

## U.S.SAWS Pro Grinder Vac Assemblies HAND-HELD GRINDERS WITH DUST SHROUDS

Convertible Shroud

Smooth Loop Handle

Metabo Grinder

### Features:

- Hand-held units that are great for smaller jobs or in combination with walk-behind grinders on larger projects
- Use on concrete for cleaning, leveling high spots or uneven floor surfaces, removing glues, mastic, epoxies and other coatings
- May be connected to a variety of dust collection systems for dust containment
- The unit's polyurethane dust shroud is long lasting and is offered in full shrouds and convertible models that flip up to allow for edge work along walls
- Systems include electric grinder, dust shroud (full or convertible), 8' of hose and hardware for mounting diamond cup wheels, Zec®s, or polishing pads
